EDUCATION

Higher National Diploma in Information Technology

At Sri Lanka Institute of Advanced Technological Education (SLIATE) - Kurunegala

(2024 - 2026)

PROJECT

• Welfare Management System

Developed a full-stack welfare management platform for member registration, loan and emergency grant workflows, document verification, multi-level approvals, monthly fee and installment tracking, automated reminders, PDF reports, and role-based dashboards for members, welfare officers, administrators, and finance officers.

Built with Next.js, React, TypeScript, MongoDB, Tailwind CSS, and secure JWT authentication.

Live Demo: <https://welfare-system-navy.vercel.app/>

GitHub: <https://github.com/tharakajayasundara37/welfare-system>

• Medicare Appointment Management System (Android App)

Developed a Kotlin-based healthcare appointment management application with role-based login for Admin, Doctor, and Patient users. Implemented doctor approval workflow, patient management, appointment scheduling, dashboards, and SQLite database integration using Android Studio.

Technologies: Kotlin, Android Studio, XML, SQLite, RecyclerView

• NewsHub — News & Blog Management System

Developed a full-stack news and blog management platform migrated from legacy PHP/MySQL to a modern Laravel architecture, featuring article publishing, category filtering, search, comment moderation, contact and newsletter forms, and role-based dashboards for public visitors, authors, and administrators.

Built with Laravel 12, PHP, MongoDB, Vite, and Tailwind CSS, with a sanitized data migration pipeline and serverless deployment on Vercel.

GitHub: <https://github.com/tharakajayasundara37/NewsBlogManagement-Laravel>

TECHNICAL SKILLS

- UI/UX Design: Figma, Wireframing, Prototyping, UX Research, Graphic Design
- Full Stack Development: React, PHP, JavaScript, HTML, API Integration, mongoDB, Database Design, SQL
- Mobile App Development: kotlin/Java, React
- Programming Languages: C#, Java, PHP, SQL
